

Little Haenyeo Story

“Little Haenyeo” is the house repaired very old small building, built in 1979. We spent 6 months to renovate this house for ourselves. Finally we could see cute rooms and lovely garden.

“Little haenyeo” also represent my young daughter who is 7 year old. After 10 more years staying in megalopolis, like Seoul, Beijing and Shanghai we decided to move to Jeju island.

Since we got tired of competition and environmental pollution of city life, we just wanted to start our new life here in Jeju where we can enjoy slow life style. After all, we enjoy our life here now.

My daughter likes to learn how to dive with neighboring Haenyeo.

We wish you can heal yourself, refresh yourself during staying here. Cleanliness is the most important value you can have here during stay, since we spend 3 hours clean the house

Jeju haenyeo being the female diver to the water for seafood is not the past story, but present one. My neighbors are Haenyeo, you can see they are diving in the sea nearby.

They are telling us the merit of

“Family”, “Independence” and “Perseverance”.

Sincerely from Miya
